

Freedom essay

Everyone knows that the first amendment protects the freedom of religion, press, speech, assembly, and petition. I am going to talk about how a kid was suspended for holding a banner that says “ Hits 4 Jesus”. No one should have their freedom taken away because they have protection in situations, limits and hate speech.

First of all, you are being protected in certain situations. In an article about constitutional rights, it states that “Free speech is not absolute: that has been true from the very beginning.” This means that free speech is not completely protected. This leads to because it talk’s about how circumstances affect first amendment. In the same article as on top, it states that “what is hate speech and under what circumstances does it, lose first amendment protection.” This means that hate speech will lose its circumstances in the first amendment. This leads to because it talk’s about limits of speech.

Secondly, freedom of speech cannot be taken away but can be limited. In an article called “The Limits of free speech,” it states that they made a “Free speech week” where they exclusively on the ideas of right-wing speakers. This leads to because freedom of speech can prevail. In the same article, it states that “truth is of such power that it will always ultimately prevail.” This shows that no one can have this full power. This leads to because some people hate speech. Even though some might say that they should have their freedom taken away because they are too young but they can make a change by spreading a message on Instagram.

Last of all, freedom of speech cannot be taken away because of hate speech. In an article called, “ Actually, hate speech is protected speech” it states that “the first amendment's guarantee of free speech does not extend only to categories of speech that survives an ad hoc balancing of relative social cost and benefits.”So what does it extend by?This leads to because with the right to free speech you have benefits. In the same article, it states that “the first amendment itself reflects a judgment by the American people that the benefits of it's restrictions on the government outweigh the cost.” How do people get benefits?

In conclusion, they should not take away the freedom of speech because of protection in situations, limits and hate speech. It is significant because everyone has the right to the first amendment.
